

JUMPSTART YOUR PRIVATE PRACTICE IN 8 WEEKS

I am so glad you're here with plans to launch the private practice you've always envisioned. In today's world, it's not enough to be a great physician and "hang a shingle", so I am here to guide you through all of the things they didn't teach us in med school. I successfully started my practice at 26 years old and grew to 10 physicians and psychologists within 3 years. My goal is to help you build a thriving private practice through this program.

Brook Choulet, M.D.

Bronze
